Weather Protected (IP55) Smart Em Rex Emergency Exit Device

The Smart Em Rex-WP is the same as the standard Smart Em Rex except that it provides additional protection against dust and water ingress. The Smart Em Rex-WP is designed to withstand splashes and sprays, but is not designed for submersion or exposure to high-pressure water streams.

Features:

- ▼ Designed to achieve IP55 ingress protection rating
- ▼ A protective coating has been applied to the PCB, the mechanism uses a stainless steel spring and an EVA gasket is fitted to provide a weather protection seal
- ▼ LED backlighting to allow the unit to be easily located
- ▼ No breaking of glass when operated, field resettable
- ▼ Two outputs, one set to break lock power and one set for status monitoring
- ▼ Audible and visual confirmation of activation
- ▼ Ancillary input for remote operation of sounder
- ▼ Minimal moving parts
- ▼ The face plate will not deteriorate over time and is easily cleaned
- ▼ Em Cover can be fitted to this unit to deter malicious use
- ▼ Black and Green surrounds are also available

Specifications:

- ▼ Single gang profile fits a standard NZ and AU electrical flush box
- ▼ Power requirements: 12Vdc or 24Vdc
- ▼ Two sets of clean N/O, N/C outputs
- ▼ The contacts are rated at 2A @ 30Vdc
- ▼ LED backlighting
- ▼ IP55 rated
- ▼ RCM, CE and RoHS Certified & complies with BS 5839 Pt 2.

Product Code:

- ▼ Smart Em Rex-WP
