

Weather Protected (IP55) Em Rex Emergency Exit Device

The Em Rex-WP is the same as the standard Em Rex except that it provides additional protection against dust and water ingress. The Em Rex-WP is designed to withstand splashes and sprays, but is not designed for submersion or exposure to high-pressure water streams.

Features:

- ▼ Designed to achieve IP55 ingress protection rating
- ▼ A protective coating has been applied to the PCB, the mechanism uses a stainless steel spring and an EVA gasket is fitted to provide a weather protection seal
- ▼ No breaking of glass when operated, field resettable
- ▼ Two outputs, one set to break lock power and one set for status monitoring to the Access Control System
- ▼ Audible and visual confirmation of activation
- ▼ An Em Cover - WP can be fitted to this unit to avoid malicious use
- ▼ Black and Green surrounds are also available

Specifications:

- ▼ Single gang profile fits a standard NZ and AU electrical flush box
- ▼ Power requirements: 12Vdc (only if using inbuilt sounder)
- ▼ Two sets of clean N/O, N/C outputs
- ▼ The contacts are rated at 1A @ 30Vdc
- ▼ IP55 rated
- ▼ RCM, CE and RoHS Certified & complies with BS 5839 Pt 2.

Product code:

- ▼ Em Rex-WP
