

JMA[®]

BT MULTIUSER

OPEN THE DOORS TO
MOBILE TECHNOLOGY
FOR MULTIPLE USERS

JMA introduces BT MULTIUSER, its first device for opening garage doors, fences and access doors through your mobile phone. Available in versions with licenses for 2 or 4 users in its initial format, BT MULTIUSER is ideal for families and small communities, as well as for small work centers, etc.

The device connects via Bluetooth to your smartphone and is handled with ease from the JMAREMOTESUSER.

The system consists of a power housing, which is placed near the door, and an M-BT remote control. The current users of this remote can also use BT MULTIUSER, acquiring only the power housing licenses.

www.jma.es

RESIDENTIAL USE, WORK CENTERS, ETC.

A SINGLE REMOTE CONTROL FOR SEVERAL USERS

Through licenses that link the remote control with the APPJMARemotesUSER

BLUETOOTH CONNECTIVITY

No need for SIM card or monthly fee for telephone line
