

Installation Instructions:

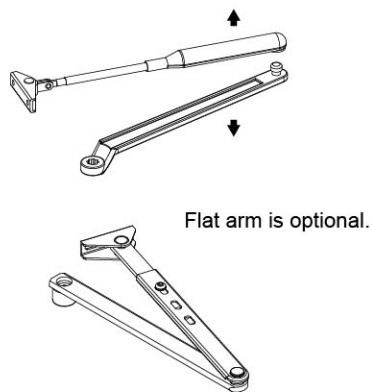

Parallel Fixing

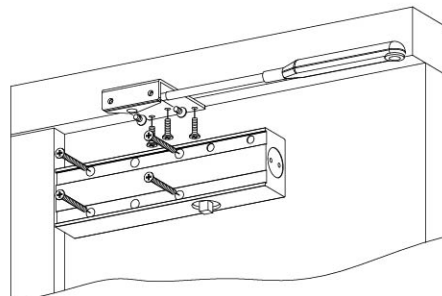

Please install the closer body and parallel arm bracket according to the template

1

Dismount the main arm and link arm

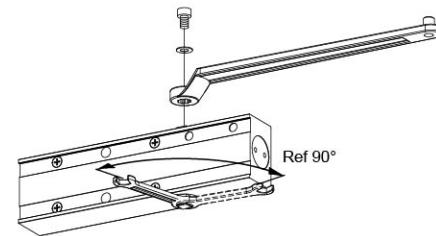

2

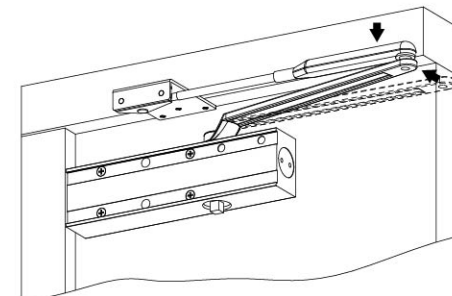

Fix link arm, parallel arm bracket and closer body by M5 screws

3

Rotate the pinion approximately at 90° by wrench as illustrated and then assemble the main arm with pinion by M6 screw tightly

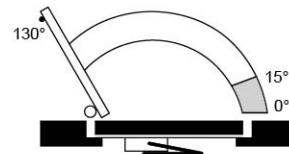

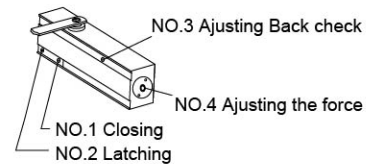

4

Connect the main arm and link arm as illustrated

5

Speed Adjustable

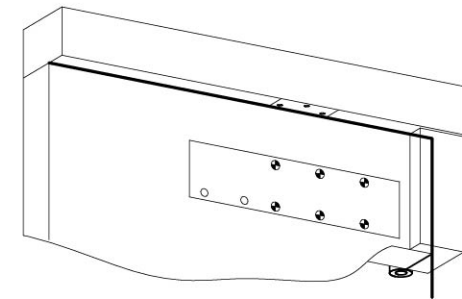

※ If the strength is too light, it could be adjusted at clockwise rotation. On the contrary, it could be done at counterclockwise.
