Capacity (max gross bin weight)

150kg of material per operator per hour

Duty cycle

Manual Winch

Power supply - no electricity required

“...saves my shoulders, and saves my muscles.”

Max Schroder - Caretaker - Sancta Maria College

The Ezi-MT is an economical manual bin tipper from Simpro, designed for low-volume users. Although it has a large 65kg lifting capacity, the Ezi-MT is lightweight and easy to move – making it an ideal solution for schools, cafes, small businesses, and local authorities.

The Ezi-MT uses the same reliable tipping action found on other Simpro products, but with a difference: it is powered by the user! The unique hand winch-powered design allows full compliance with workplace health and safety laws, without expensive hydraulic machinery.

To ensure safety and stability when emptying heavy bins, the Ezi-MT keeps the weight of the bin within the footprint of the machine, right throughout the tipping cycle.

Whole-of-life environmental impact was considered from the start of the Ezi-MT design process, to create a product that doesn't hurt the planet. The single-mast design weighs just 110kg, and can be shipped flat-packed to reduce emissions from transport. The Ezi-MT has no powered components, generates no electronic waste, and is completely recyclable.

Yet the Ezi-MT is also very robust, and can be used outdoors for many years with little or no maintenance.

① Simpro has been developing, manufacturing and retailing Smart Lifting solutions for over thirty years. From humble beginnings as a small engineering firm in Auckland, New Zealand, the company has grown to become a leading supplier of equipment for niche applications – such as bin lifting, tipping and handling equipment, pallet trucks, stackers, order pickers, and goods lifts.

Simpro products play an unobtrusive but essential role for thousands of companies around the world, in industries as diverse as waste

management, resource extraction, pharmaceutical manufacturing and food processing. They are distributed through a worldwide network of agents, and are backed by a sophisticated in-house design and fabrication capability.

Simpro is a family-owned company, registered with the New Zealand Companies Office as Simpro Handling Equipment Ltd, company no. 1827916.

The products in this catalogue contain intellectual property, including design elements registered to or licensed by Simpro Handling Equipment Ltd.
