

# Learning through fun!

## RAISE FUNDS FOR YOUR SCHOOL!

### Mindraiser

Science Supply Australia would like to help raise funds for your school! Earn funds whilst students have the opportunity to learn through FUN Science....

We will give back 15% of total sales(exgst) to your school to assist with buying resources. Simply complete the order form, pay by direct deposit or credit card and then we will deliver goods to your school.

Ordering is as easy as

#### POCKET MICROSCOPE

**FS78120 \$12.65**

20x - 40x pocket Zoom microscope with LED lamp. Explore the natural world in fine detail!

**Learn:** Microscopy, attention to detail.  
Ages: 6+

#### THE CHAOTIC PENDULUM

**FS3506 \$15.95**

Build a pendulum from strong, easy-to-assemble, pre-cut durable and recyclable cardboard parts, string and magnets.

**Learn:** Magnetic force, history of pendulums.  
Ages: 8+

#### THE SUNDIAL FS3508

**\$15.95**

Build a wearable sundial and discover the time of day. Uses techniques of the ancient Egyptians.

**Learn:** Time technique.  
Ages: 8+

#### MAKE YOUR OWN SLIME!

**FS059 \$5.50**

A classic science experiment, loved by all! Make your own gooey slime - it's so easy. Just mix the powders (included) with water and voila... Slippery, squishy slime you are sure to have hours of fun.

**Learn:** Polymer chemistry and matter.  
Ages: 5+

#### DIY HI BOUNCE BALL KIT

**FS5019 \$5.50**

Make your own crazy bouncing balls with this great science experiment! There's enough to make 4 different shaped balls. Kit contains 2 ball moulds and 4 sachets.

**Learn:** Chemical reactions and Polymer chemistry  
Ages: 5+

#### MAGNET SCIENCE FSG3291 \$21.45

Includes 10 fun experiments and games! Learn and explore magnetic forces by making a high powered horse shoe magnet and a magnet wand! Construct a super magnet racer and a yacht compass. **Learn:** Magnetism. Ages: 7+

#### POCKET KITE FS5004 \$3.85

"Handy kite folds up and fits neatly inside a pocket sized pouch. Simply works on the principle of the pockets sewn into its wings filling with air and....up she goes!

Great fun for the park or beach.  
**Learn:** Airflight, air pressure  
Ages: 6+

#### THE KALEIDOSCOPE

**FS3501 \$18.70**

Build your own kaleidoscope from strong, easy-to-assemble, pre-cut durable and recyclable cardboard parts and mirrors.

**Learn:** Light & colour, reflections  
Ages: 5+

## WILD SCIENCE - BUILD A BRACELET

**FS921 \$13.75**

Discover the science of light with accessories which can change colour in sunlight, or glow-in-the-dark! Make up to 6 unique custom bracelets to suit YOU! Create moving, swirling, flowing effects or jiggling wriggling rainbow colours!

**Learn:** Colour change.

Ages: 6+

## WILD SCIENCE - MAGIC NAIL

**FS914 \$13.75**

Create real custom nail polishes with solar colour change effects. Colours, shimmer, tool and bottles included. SAFE! No dangerous solvents.

**Learn:** Colour changes, Cosmetic science. Ages: 8+

## WILD SCIENCE - ROCKET RACER

**FS929 \$13.75**

Unique balloon powered drag racer plus flying rocket system. Vary number of jets, thrust angle, wheel sizes. Race on land and air at the same time!

**Learn:** Air pressure. Ages: 6+

## BUILD YOUR OWN MICROSCOPE IN A TIN

**FS273 \$22.00**

Encouraging kids' curiosity, this microscope allows the tiniest of things to be seen close up and best of all it can be re-packed into its tin for easy transportation during field trips.

**Learn:** Microscopy. Ages: 8+

## CHEMISTRY CHAOS

**FS75411 \$22.00**

A comprehensive science kit with 19 fun and interesting experiments to explore the natural world. The kit includes all the main scientific equipment required for the experiments.

**Learn:** Chemical reactions

## FORENSIC DETECTIVE

**FS75406 \$12.65**

Take fingerprints of your friends and family then use this print library to dust and identify a mystery print - just like a real detective.

**Learn:** Forensic Science.

Ages: 8+

## WILD SCIENCE - LIP BALM

**FS903 \$13.75**

Professional ingredients make custom lip balms for all occasions. Colour, flavour, shimmer, tools, inventor's palette and crystal balm jar included.

**Learn:** Cosmetic science.

Ages: 8+

## WILD SCIENCE - OCEAN FRIENDS, SOAP STUDIO

**FS920 \$13.75**

Sunny starfish, shimmering shells, funny fishes, suspended in glittering, transparent soap shapes. Design, melt, mix, decorate, embed, cool and USE for bath time!

**Learn:** Chemical science. Ages: 8+

## WILD SCIENCE - EXPLODING VOLCANO

**FS918 \$13.75**

Create coloured lava flows. Make unique bubbling mineral pools. Make different kinds of volcano bomb... and more.

**Learn:** Volcano activity . Ages: 8+

## MINI MECHANIC IN A TIN

**FS231 \$22.00**

Mini Mechanic in a Tin contains a traditional metal construction set that can build three different models - a plane, helicopter and quad bike. Complete with tools and instructions.

**Learn:** Building and Construction, Mechanical science.

Ages: 8+

## MAKE YOUR OWN VOLCANO

**FS78100 \$19.80**

Museum Victoria - Easy, safe and fun kit you can recreate the spectacular sight of an eruption of a mini-Vesuvius in your own home!

**Learn:** Volcanos. Ages: 8+

## CRYSTALS AND MINERALS

**FS78101 \$14.85**

Museum Victoria - Grow crystals using Mono Ammonium Phosphate (supplied) and salt (not supplied) and discover the amazing qualities and features of minerals that make them essential in everyday life.

**Learn:** Rocks and minerals.

Ages 10+

### **PAPER AEROPLANE KIT FS6313 \$16.50**

60 planes to fold and fly. Perform tricks or hold competitions. Easy to follow instructions and designs on every sheet. 20 unique designs.

**Learn:** Airflight, Air pressure. Ages: 3+

### **SANDS ALIVE STARTER SET FS23014 \$26.40**

Fun with sand without the mess! This kinetic moving sand starter kit is non toxic and prevents bacterial growth

Includes 0.68kg of sand and 4 tools

**Explore: sensory & cognitive development, stimulate creativity and allow the imagination to invent! Great tactile experience**

Ages: 3+

### **AIRBOAT HJ0030**

**\$19.80**

Build your very own boat using this kit. Components clip together, meaning no messy solder. The kit details 100 educational experiments.

**Learn:** Electronics. Ages: 7+

### **3D BUG VIEWING KIT TFC50147 \$11.55**

Explore insects in your garden and then view your findings in the third dimension! Consists of a super-strong, clear plastic bug viewer with three magnified viewing points and green carry-anywhere strap.

**Learn:** Insect anatomy.

Ages: 5+

### **KITCHEN SCIENCE FSG3296 \$21.45**

Perform 6 amazing experiments using everyday materials found in your kitchen! Light up an electric bulb with a fork and a lemon. Build a table top volcano and watch it erupt with bubbly 'lava'. Launch an explosive rocket fuelled by baking soda and vinegar, and more...**Learn:** Chemical reactions, electricity, matter. Ages: 8+

### **ILLUSION SCIENCE FSG3256**

**\$21.45**

View and create 3D pictures, over 20 optic fun activities with scientific explanations

**Learn:** Optical illusions. Ages: 7+

### **MELTING SNOWMAN FS539 \$12.65**

**FS539 \$12.65**

Take Frosty's putty out of the tub and build him by adding his arms, hat, eyes, nose and scarf. Watch poor Frosty melt and then build him all over again.

**Learn:** Principles of matter, solid, liquid & gas. Ages: 5+

### **THE JET CAR FS3503 \$16.50**

Build a jet car from strong, easy-to-assemble, pre-cut durable and recyclable cardboard parts and power it by air using the balloons supplied. Instruction leaflet explains the science behind the forces involved and offers fun suggestions for further experimentations.

**Learn:** Air pressure. Ages: 5+

### **SUNPRINT PAPER HJ110 \$12.65**

**HJ110 \$12.65**

Create amazing white on blue prints using the power of the sun. Just place leaves, flowers, feathers or whatever you like on the photo-sensitive paper and place it in the sun.

**Learn:** Photochemical reaction, Sun exposure. Ages: 6+

### **TWO-WAY MICROSCOPE BUG VIEWER TFC50135 \$16.50**

**TFC50135 \$16.50**

Flexible 20X-30X microscope with zoom feature. Easily tracks the movement of insects and allows for the intimate studying of their body structure from top to bottom. Includes: two insects and one pair of tweezers.

**Learn:** Insect anatomy. Ages: 5+

### **BUBBLE SCIENCE FSG3351 \$21.45**

**FSG3351 \$21.45**

Create a giant bubble, freeze bubbles, appreciate bubble geometry and more.

**Learn:** Bubbles, Air. Ages: 8+

### **SOLAR SCIENCE FSG3278 \$21.45**

Build a miniature working solar oven, explore renewable energy. Kit contains all materials needed to complete projects.

**Learn:** Renewable energy. Ages: 8+
