

42A1

## Bleach low temp - hypochlorite

### Description

Clax® Hypo 42A1 is a low temperature hypochlorite bleach, specially suitable for white linen.

### Features

Clax® Hypo 42A1 is a very effective bleach suitable for low temperature bleaching of whites and non coloured linen or non sensitive linen. It is used to bleach away any residual stains that are left during the washing of the linen.

Clax® Hypo 42A1 is not recommended for use on coloured work unless it is shown that the colours won't fade.

### Benefits

- Excellent destainer for all types of white fabric.
- Economical.
- Effective on most protein stains.
- Improves whiteness.
- Suitable for low temperature bleaching.
- Contains stabilisers to preserve chlorine concentration.

### Application areas

- Healthcare
- Lodging
- Government
- Commercial
- Laundry

# 42A1

## Directions for use

1. Dose via Diversey automatic dosing equipment.
2. Clax® Hypo 42A1 is typically dosed into the next step after the main wash.
3. Water level should be low and temperature should not exceed 60°C and optimum pH 10-10.8.

Light soil 3ml/Kg dry goods. Heavy soil 10ml/Kg dry goods. Rinse with potable water at the end of the laundering process. Please consult your Diversey representative for optimum performance.

In New Zealand: MPI Approved C33 (All animal product except dairy).
