

**TASKI®**

# Jontec Seal & Care

## Floor sealer for vinyl floors

### Description

Floor sealer for the basic treatment of porous vinyl floors. Specific polymers used in the product fill the pores, facilitate adhesion and help reduce the consumption of further coats of floor emulsion. By ensuring the proper adhesion, subsequent floor emulsions will show greater durability.

### Features

- Facilitates adhesion
- Semi permanent layer
- Fills the pores
- Reduces the consumption of the floor emulsion on top

### Benefits

- Conventional floor emulsions can be selectively removed without affecting the sealer
- Prepares the floor to ease the application of floor emulsions on porous or damaged floors
- Allows savings on application of floor emulsion
- Suitable for traditional applications with a flat mop, mop and bucket or standard polish applicators

### Application areas

- Retail
- Education
- Government
- Healthcare
- Institutional Facilities

\*\* The product doesn't contain intentionally added fluorinated levelling agents (PFAS).

# Jontec Seal & Care

## Floor sealer

### Directions for use

1. Treat only stripped area, thoroughly rinse with clean water and clean pads, and completely dry floors.
2. Sparingly pour onto the floor and evenly spread in a line format with an appropriate polish applicator.
3. Sparingly pour product onto floor in lanes of 1-1.5m with lanes overlapping when still wet.
4. Allow to dry the floor completely (50-60 minutes). Apply a second coat on previously sealed surface.
5. Allow to dry completely (50-60 minutes) and then apply further coats of TASKI Vectra ProX as top coat.

### Dosage\*

Ready to use, no dilution required.

Product consumption: 30 m<sup>2</sup>/L plus top coat - max. 40 m<sup>2</sup>/L plus top coat

*\*This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
