

HAND SANITISER

Section 1. Identification

Product identifier: Hand Sanitiser **Product Code:** SANI1L, SANI0.5L, SANI6X500

Other means of identification: N/A

Recommended use and restrictions on use: Alcohol Gel Hand Sanitiser. Use in accordance with directions on product label.

Supplier: Verla

Street Address: 2/1 Endeavour Road **Postal Address:** PO Box 334
Caringbah NSW 2229 Caringbah NSW 1495

Phone No: 1800 635 746

Internet: www.puur.com.au

Emergency Phone No - 13 11 26 (POISONS INFORMATION CENTRE)

Section 2. Hazards Identification

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Classified as Dangerous Goods according to the Australian Dangerous Goods Code (ADG).

GHS Classification

Flammable Liquids - Category 2

Signal Word

DANGER

Hazard Statements

Highly flammable liquid and vapour.

Pictograms

Precautionary Statements

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read Label before use.

Keep away from heat/sparks/open flames/hot surfaces - No smoking.

Keep container tightly closed.

Use only non-sparking tools.

Take precautionary measures against static discharge.

Wear protective gloves/eye/face protection.

IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water.

In case of fire: Use alcohol resistant foam or normal protein foam for extinction.

Store in a well-ventilated place. Keep cool.

Dispose of contents in accordance with local/state regulations.

Section 3. Composition and Information on Ingredients

Chemical Name	CAS Number	Percentage (%)
Ethanol	64-17-5	70
Other ingredients determined not to be hazardous or below concentration cut-off		to 100

HAND SANITISER

Section 4. First Aid Measures

- Swallowed:** DO NOT induce vomiting. Give plenty of water to drink. If symptoms develop seek medical advice.
- Eye Contact:** Rinse with plenty of water for at least 15 minutes holding eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist seek medical attention.
- Skin Contact:** Wash skin with plenty of water. Remove contaminated clothing and wash before reuse. If symptoms develop seek medical advice.
- Inhalation:** Move victim to fresh air. If symptoms develop, seek medical advice.
- Symptoms caused by exposure:** Stupor, slurred speech, unable to walk, nausea and vomiting.
- Medical attention and special treatment:** No specific treatment. Treat symptomatically.

Section 5. Fire Fighting Measures**Suitable extinguishing equipment:**

Flammable liquid and vapour. Alcohol resistant foam, fine water spray, dry chemical or CO₂ may be used to contain fire. Water spray may be used to cool surrounding containers.

Specific hazards arising from the chemical:

Flammable liquid. Can release vapours that form explosive mixtures with air. Vapour is slightly heavier than air and can travel to source of ignition and flash back. Carbon dioxide, carbon monoxide, and other toxic gases may be produced in the case of fire.

Special protective equipment and precautions for fire fighters:

Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire.

Section 6. Accidental Release Measures**Personal precautions, protective equipment and emergency procedures:**

Ensure clean-up is conducted by trained personnel only. Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.

Environmental precautions:

Ensure no spillage enters drains or waterways. If significant amounts of product does enter a waterway, advise the Environmental Protection Authority or the local Council.

Methods and materials for containment and cleaning up:

Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect and seal in properly labelled drums for disposal.

Section 7. Handling and Storage**Precautions for safe handling:**

Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing. Take precautionary measures against static discharge. Do not use near sparks, open flames or hot surfaces.

Conditions for safe storage, including incompatibilities

Store in a cool, dry, well-ventilated place out of direct sunlight. Avoid sources of ignition. Keep containers closed at all times - Check regularly for spills. For large quantities, a fire extinguisher appropriate to class B fires should be kept in the vicinity (dry chemical or carbon dioxide). Store away from strong acids and oxidisers.

Section 8. Exposure Controls and Personal Protection

National Exposure Standards: An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

HAND SANITISER

Ingredient Name	CAS No	TWA (ppm)	TWA (mg/m ³)	STEL (ppm)	STEL (mg/m ³)
Ethyl alcohol	64-17-5	1000	1880	-	-

Engineering Controls:

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling vapours. Keep containers closed when not in use.

Individual Protection Measures:

Eye and face protection Chemical resistant goggles should be worn to prevent eye contact.

Skin protection Not normally needed.

Respiratory protection Not normally needed. If significant vapours or mists are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NSZ 1716.

Thermal hazards Refer to Section 5.

Section 9. Physical and Chemical Properties

Appearance:	Viscous Gel	Colour:	Clear
Odour:	Characteristic	Boiling Point:	Not available
Vapour Pressure:	Not available	Specific Gravity:	0.88 - 0.90
Flashpoint (°C):	Not available	Flammability:	Not available
Water Solubility:	Complete	pH:	6.0-8.0
Auto-ignition Temperature:	Not available	Viscosity:	Not available
Relative Density:	Not available	Evaporation Rate:	Not available
Vapour Pressure	Not available	Melting Point/Freezing Point	Not available
Partition Coefficient: n-octanol/water	Not available	Upper/Lower Flammability or Explosive Limits:	Not available

Section 10. Stability and Reactivity

Reactivity:	Not reactive.
Chemical Stability:	Stable under normal ambient storage conditions.
Possibility of Hazardous Reactions:	Hazardous polymerisation will not occur.
Conditions to Avoid:	Avoid sources of ignition, heat, high temperatures (store below 30°C) and direct sunlight.
Incompatible Materials:	Do not mix with other chemicals. Store away from strong acids and strong oxidisers.
Hazardous Decomposition Products:	Carbon monoxide, carbon dioxide and other toxic fumes.

Section 11. Toxicological Information**Information on Route of Exposure****Acute Toxicity:**

Acute Toxicity Estimated (ATE) value: Not classified.

Skin Corrosion/Irritation: Not classified.

Serious Eye Damage/Irritation: Not classified.

Respiratory or Skin Sensitisation: Not classified.

Germ Cell Mutagenicity: Not classified.

Carcinogenicity: Not classified.

Reproductive Toxicity: Not classified.

HAND SANITISER

Specific Target Organ Toxicity (STOT) - Single Exposure:	Not classified.
Specific Target Organ Toxicity (STOT) - Repeated Exposure:	Not classified.
Aspiration Hazard:	Not classified.
Immediate, Delayed and Chronic Health Effects From Exposure:	Not classified.
Other Information:	Not classified.

Section 12. Ecological Information

Ecotoxicity:	No data available.
Persistence and Degradability	Expected to be readily biodegradable.
Bioaccumulative Potential	Not expected to bioaccumulate.
Mobility in Soil	High.
Other Adverse Effects	None known.

Section 13. Disposal Considerations

Disposal Methods	Refer to State/Territory Land Waste Management Authority. Dispose of material through a licensed waste third party, in accordance with local regulations.
------------------	---

Section 14. Transport Information

Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG) for transport by Road and Rail (Special Provision 144).

UN Number	UN1987
Proper Shipping Name or Technical Name	ALCOHOLS, N.O.S
Transport Hazard Class	3
Packing Group	II
Environmental hazards for Transport purposes	-
Special User Precautions	-
Additional Information	-
Hazchem or Emergency Action Code	·3YE

Section 15. Regulatory Information

NICNAS	All substances are listed on the Australian Inventory of Chemical Substances (AICS).
Poisons Schedule (SUSMP)	None allocated.

Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.

Glossary:

Peak limitation means a maximum or peak airborne concentration of a substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

Log K_{oc} Adsorption Classifications

- > 4.5 Very strong sorption to soil / sediment, negligible migration to ground water
- 3.5 - 4.4 Strong sorption to soil / sediment, negligible to slow migration to ground water
- 2.5 - 3.4 Moderate sorption to soil / sediment, slow migration to ground water
- 1.5 - 2.4 Low sorption to soil / sediment, moderate migration to ground water
- < 1.5 Negligible sorption to soil / sediment, rapid migration to ground water
