## DS500-PQD

### Probiotic Quick Dissolve<sup>1</sup> Dust Suppression Block

Designed for the mining industry, effective across all sectors

An environmentally friendly, highly concentrated fast dissolving solid block used as an additive to water for the suppression of dust. DS500-PQD features a probiotic ingredient designed to target and digest harmful bacteria in settling ponds and waste water. The result is cleaner waterways and a lower environmental impact.

<b>Dissolve Time:</b>	20 minutes	<b>Size<sup>^</sup>:</b>	H188mm x D50mm
<b>Usage*:</b>	2 blocks per 1,000L of water	<b>Weight<sup>^</sup>:</b>	500g
<b>Colour:</b>	Blue	<b>Carton Size:</b>	15 (approx. 7.5kg)

#### Benefits

-  Reduce Production Costs
-  Improve Worker Safety
-  More Effective than Water Alone
-  Increase Productivity
-  Meet Regulatory Obligations
-  Biodegradable
-  Save Water
-  Remove IBC Problems
-  Australian Made

#### Directions for Use

DS500-PQD can be applied using existing site water trucks, tankers or sprinklers, as well as injected into water supply lines.

**1. Dissolve two blocks of DS500-PQD per 1,000 litres of water.\***

- Individual packaging does not need to be removed as it is a soluble plastic that will dissolve in water.
- For increased efficiency, add DS500-PQD before adding water – it will dissolve whilst water is being filled.

**2. Allow approximately 20 minutes to fully dissolve.**

**3. Apply as per equipment instructions.**

**4. Recycle outer carton after use.**

As the product is encapsulated in a soluble plastic packaging, the use of personal protective equipment (PPE) is generally not required. Consult the Safety Data Sheet (SDS) for further information.

The added probiotic ingredient makes DS500-PQD the ideal choice for the environmentally conscious business.
