Not flammable. Use extinguishing media suitable for surrounding fire.
- Specific hazards arising from the chemical:**  
Hydrogen gas, chlorine, oxides of carbon.
- Special protective equipment and precautions for fire fighters:**  
Firefighters should wear full protective clothing including self-contained breathing apparatus & chemical splash suit. Remove from the vicinity containers not involved in the fire. Ensure no spillage enters drains or water courses.

**Section 6. Accidental Release Measures**

- Personal precautions, protective equipment and emergency procedures:**  
Clean up spill promptly to avoid accidents. Wear protective equipment (see Section 8) to prevent skin and eye contamination and inhalation of mists and vapours. Stop leak if safe to do so. Ensure adequate ventilation.
- Environmental precautions:**  
Ensure no spillage enters drains or waterways. If product does enter a waterway, advise the Environmental Protection Authority or the local Council.
- Methods and materials for containment and cleaning up:**  
Cover with damp absorbent material (inert material, sand or soil). Sweep up, but avoid generating dust. Collect and seal in properly labelled drums for disposal.

**Section 7. Handling and Storage**

- Precautions for safe handling:**  
Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing. Wear appropriate Personal Protective Equipment (PPE) when handling.
- Conditions for safe storage, including incompatibilities**  
Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from strong acids and oxidisers. Keep containers closed at all times - Check regularly for spills.

**Section 8. Exposure Controls and Personal Protection**

**National Exposure Standards:** An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.
