

Vanquish Suction Polisher OSP445

Precision Engineered

The Vanquish 400

Vanquish OSP445

The Vanquish Suction Polisher is ideal for buffing, spray burnishing and stripping polish off floors. It is also designed for tough sanding jobs on wooden floors.

The Vanquish Suction Polisher has a true centre mount drive motor with a double reduction gearbox, this offers a balanced ease of use, that leaves the operator in control. The vacuum system is fully enclosed and mounted on the base of the machine to improve performance and eliminates weight on the handle that loads the operator.

Quality is built into all the components, including stainless steel handle, axle and all fasteners. The motor has a fin aluminium chassis that allows for the coolest running motor on the market. The engineering shows through with the quietness of the double reduction gearbox. The gearbox does not require maintenance or adjustments. The vacuum system is fully enclosed so dust does not escape as in bag fill machines and no debris passes through the fan that can cause damage and bearing wear.

Designed with a tough plastic cover that protects the motor and components, like the capacitors. It also keeps the machine looking good with its clean lines and durability.

Vanquish OSP445

A cam lever locks the handle with ease for Operator comfort.

Ergonomically designed control handle that is made safe with flame retardant materials. Even the handle grips are ergonomically designed.

A robust injection moulded cover that improves cooling and protects the motor. It also keeps looking good and prevents dents and scratches.

Ergonomic switch levers that allow the load to be spread over the whole hand. The vac switch is located for ease of use.

A choice of quick release brushes or pad holder. Order separately when ordering machine.

200mm double ball bearing Wheels for easy transport. The wheels are non marking And rated at 400Kgs.

A sealed vacuum system, with optional disposable dust bags. A clear lid for the operator to see if the bag is full.

Optional disposable dust bags that are re-usable, standard with OSP445

The skirt is fixed to the underside of the bumper. This ensures that the skirt does not pull off accidentally and protects the skirt from damage when the machine hits a wall or an obstacle.

The Vanquish 400

Vanquish OSP445

Features

Center mount Motor
Aluminium die cast Fin Cooled Motor
Double reduction gearbox grease fill
Sealed Vacuum system
Vacuum switch mounted on the handle switch box
Clear vacuum lid
Integrated capacitors
Injection moulded plastic protection
Aluminium and stainless steel body
All fasteners stainless steel
Stainless steel handle
90 degree handle adjustment
Ergonomic handle lever adjustment
Skirt protected by the bumper

Motor and Gearbox Assembly

Specifications OSP445

Motor	2 pole, 1.5K (2Hp) Aluminium Fin cooled chassis
Gearbox	Double reduction, helical gears Maintenance Free
Brush Speed	386 RPM
Brush Size	45cm
Vacuum System	Fully sealed canister with optional disposable bags. Clear lid. Thermal cutout
Vacuum Motor	850W 2 stage fan Flow-thru
Filtration	4 stage filtration 99.98% at 0.3 micron
Filter Bag capacity	2.8L
Handle	Fully Adjustable
Lead	15M Heavy Duty, Rubber with cable restraint
Wheels	200mm double bearing, rated 400Kgs
Weight	40 Kg
