continue flushing for at least 15 minutes. Get medical attention immediately.

Skin Contact Remove immediately all contaminated clothing. Wash off immediately with plenty of water

for at least 15 minutes. Get medical attention immediately.

Inhalation Move to fresh air. In case of shortness of breath, give oxygen. If breathing has stopped,

apply artificial respiration. Get medical attention immediately.

Ingestion Clean mouth with water and afterwards drink plenty of water.

Treat symptomatically. Aspiration hazard if swallowed - can enter lungs and cause damage. Notes to physician

5. FIRE-FIGHTING MEASURES

Flash Point Flammable Liquid 40 °C Method Seta closed cup

Auto ignition Temperature No information available.

Flammability Limits in Air % Mixture. Upper 6 Lower 0.6

Suitable Extinguishing Media

Carbon dioxide (CO2), Foam, Dry Chemical or Water fog. Dry chemical. Water spray. Foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Specific hazards arising from the chemical

Solvent vapours are heavier than air and may spread along floors. Vapours may ignite and explode. Material can create slippery conditions. Flammable product. Moderate risk of explosion if fire occurs.

Protective Equipment and Precautions for Firefighters

Wear self-contained breathing apparatus pressure-demand, Safe Work, Australia (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions Use personal protective equipment. Remove all sources of ignition. Ensure adequate

ventilation. Prevent further leakage or spillage if safe to do so. Material can create slippery

conditions.

Environmental Precautions

Do not flush into surface water or sanitary sewer system.

Methods for Containment Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth,

diatomaceous earth, vermiculite) and transfer to a container for disposal according to local /

national regulations (see section 13).

Methods for Cleaning Up Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth,

diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13). Pick up & transfer to properly labelled containers.

Never return spills in original containers for re-use.

Neutralizing Agent Not applicable.

7. HANDLING AND STORAGE

Avoid contact with skin, eyes and clothing Handling

Avoid breathing vapours or mists

Storage Keep away from open flames, hot surfaces and sources of ignition

Store in original container

Keep containers tightly closed in a dry, cool and well-ventilated place

Storage Temperature Minimum 2°C
