Section	1.	Identification
Section	••	I a c i i c a c i o i i

Section 1. Identifica			
Product identifier:	Trifecta	Product Code:	TRIFEC
Other means of identi	fication: N/A		
Recommended use an	<b>d restrictions on use:</b> Hard surface anti-b directions on product label.	acterial spray. Use	e in accordance with the
Supplier:	True Blue Chemicals		
Street Address:	2/1 Endeavour Road Caringbah NSW 2229	Postal Address:	PO Box 334 Caringbah NSW 1495
Phone No:	1800 635 746		
Internet:	www.truebluechemicals.com.au		

# Emergency Phone No - 13 11 26 - Poisons Information Centre

Section 2.	Hazards Identification	
------------	------------------------	--

Classified as hazardous according to the criteria of Safe Work Australia (SWA).

Not classified as dangerous goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

GHS Classification Serious Eye Damage/Irritation - Category 2

Signal Word WARNING

Hazard Statements Causes serious eye irritation

# **Precautionary Statements**

Wash hands thoroughly after handling. Wear eye/face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical attention.

# Pictograms

# Section 3. Composition and Information on Ingredients

Chemical Name	CAS Number	Percentage (%)
Surfactant	Proprietary	1-10
Ethyl alcohol	64-17-5	1-10
2-Butoxyethanol	111-76-2	1-10
Quaternary ammonium compound		<1
Ingredients determined not to be hazardous		to 100

#### Section 4. First Aid Measures

Swallowed: Do NOT induce vomiting. Rinse mouth with plenty of water. Give water to drink. If symptoms develop seek medical advice.

**Eye Contact:** Irrigate with copious amounts of water for at least 15 minutes, holding eyelids open. If eye irritation develops, seek medical advice.

Skin Contact: Remove contaminated clothing and flush skin with running water. Rinse with water. If skin irritation develops seek medical advice.

Inhalation: If symptoms develop seek medical advice.

# ★ trueblue.

# Trifecta

Symptoms caused by exposure: None known.

Medical attention and special treatment: No special treatment required. Treat symptomatically.

## Section 5. Fire Fighting Measures

## Suitable extinguishing equipment:

Not flammable. Use extinguishing media suitable for surrounding fire.

Specific hazards arising from the chemical: None known.

#### Special protective equipment and precautions for fire fighters:

Firefighters should wear appropriate personal protective equipment for surrounding fire. Remove from the vicinity containers not involved in the fire.

## Section 6. Accidental Release Measures

## Personal precautions, protective equipment and emergency procedures:

Avoid contact with eyes. Wear appropriate Personal Protective Equipment when cleaning up spills.

## Environmental precautions:

Avoid release into drains without dilution.

#### **Methods and materials for containment and cleaning up:** For small spills contain using sand or soil - prevent run off into drains or waterways.

## Section 7. Handling and Storage

## Precautions for safe handling:

Observe good personal hygiene practices and recommended procedures. Wash hands thoroughly after handling. Avoid contact with eyes, skin and clothing. When using, do not eat, drink or smoke.

#### Conditions for safe storage, including incompatibilities

Store in a cool, well ventilated place out of direct sunlight. Keep containers closed at all times - check regularly for spills. Store away from strong acids and strong oxidisers.

# Section 8. Exposure Controls and Personal Protection

**National Exposure Standards:** An occupational exposure standard (OEL) has not been established for the product. The following components have been listed with an OEL as per Safe Work Australia - Workplace Exposure Standards for Airborne Contaminants.

Ingredient Name	CAS No	TWA (ppm)	TWA (mg/m <sup>3</sup> )	STEL (ppm)	STEL (mg/m <sup>3</sup> )
Ethyl alcohol	64-17-5	1000	1880		
2-Butoxyethanol*	111-76-2	20	96.9	50	242

\* Absorption through the skin may be a significant source of exposure.

#### **Engineering Controls:**

Natural ventilation should be adequate under normal use conditions. Avoid generating and inhaling mist and vapour. Keep containers closed when not in use.

#### Individual Protection Measures:

Eye and face protection Safety glasses or chemical resistant goggles should be worn to prevent eye contact.

Skin protection	Wear rubber gloves to prevent skin contact.
Respiratory protection	Not normally needed. If significant vapours or mists are generated, use an appropriate respirator in accordance with AS/NZS 1715 and AS/NZS 1716.
Thermal hazards	Refer to Section 5.

# **≁ true**blue

# Section 9. Physical and Chemical Properties

Appearance:	Liquid	Colour:	Green
Odour:	Citrus	Boiling Point (°C):	Not established
Vapour Pressure:	Not established	Specific Gravity:	0.99 - 1.01
Flashpoint (°C):	Not flammable	Flammability:	Not flammable
Water Solubility:	Complete	pH:	10.0 - 11.0
Auto-ignition Temperature:	Not flammable	Viscosity:	Not established
Relative Density:	Not established	Evaporation Rate:	Not established
Vapour Pressure	Not established	Melting Point/Freezing Point(°C):	Not established
Partition Coefficient: n-octanol/water	Not established	Upper/Lower Flammability or Explosive Limits:	Not flammable

Section 10. Stability and Reactivity			
Reactivity:	Not reactive.		
Chemical Stability:	Stable under normal ambient storage conditions.		
Possibility of Hazardous Reactions:	Hazardous polymerization will not occur.		
Conditions to Avoid:	Avoid high temperatures (store below 30°C) and direct sunlight. Protect against physical damage.		
Incompatible Materials:	None known.		
Hazardous Decomposition Products:	None known.		

# Section 11. Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label.

# Information on Route of Exposure

Ingestion: Swallowing in small amounts is unlikely to cause any adverse effects. Larger doses may cause gastro-intestinal irritation, nausea and vomiting.   Eye Contact: No effects known.   Skin Contact: No effects known.   Inhalation: No effects known.   Skin Corrosion/Irritation: Not classified   Serious Eye Damage/Irritation: Causes serious eye irritation. # Section 12. Ecological Information

Ecotoxicity: No test data available.

Persistence and Degradability: No data available.

# ★ trueblue.

Trifecta

Bioaccumulative Potential:	Not expected to bioconcentrate.	
Mobility in Soil:	Negligible sorption to Log K <sub>oc</sub> value (EpiSuit	soil/sediment, rapid migration to ground water (Estimated e KOCWIN): < 1.5).
Other Adverse Effects:	None known.	
Section 13. Disposal Consid	lerations	
Disposal Method:	Refer to State/Territory Land Waste Management Authority. Dispose of material through a licensed waste third party, in accordance with local regulations.	
Section 14. Transport Infor	rmation	
Road and Rail Transport:	Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail.	
UN Number		Not applicable
Proper Shipping Name		Not applicable
Technical Name		Not applicable
Transport Hazard Class		Not applicable
Packing Group		Not applicable
Environmental Hazards for	r Transport purposes	Not applicable
Special Precautions for Use	er	Not applicable
Additional Information		Not applicable
Hazchem Code or Emergency Action Code Not applicable		Not applicable

# Section 15. Regulatory Information

## Poisons Schedule (SUSMP): None allocated

All ingredients are listed on the Australia Inventory of Chemical Substances (AICS).

# Section 16. Other Information

This information is provided to the best of our knowledge and belief, accurate as of the last revision date. It is provided in good faith and relates to the specific materials designated. True Blue Chemicals assumes no liability or responsibility for loss or damage resulting from improper use or handling of our products from incompatible product combinations or from failure to follow usage directions. This document remains the property of True Blue Chemicals Pty Ltd. Alterations are not permitted without prior written authorisation from True Blue Chemicals Pty Ltd.

# Glossary:

NICNAS:

*Peak limitation* means a maximum or peak airborne concentration of a substance determined over the shortest analytically practicable period of time which does not exceed 15 minutes.

## Log Koc Adsorption Classifications

- > 4.5 Very strong sorption to soil / sediment, negligible migration to ground water
- 3.5 4.4 Strong sorption to soil / sediment, negligible to slow migration to ground water
- 2.5 3.4 Moderate sorption to soil / sediment, slow migration to ground water
- 1.5 2.4 Low sorption to soil / sediment, moderate migration to ground water
- < 1.5 Negligible sorption to soil / sediment, rapid migration to ground water
