

DCL Solenoid

- Potted DC Latching solenoid suits Richdel, 700series and Century Plus series valves.
- Suits JRDC, RadioMaster, IBOC and IBOC Plus
- Wetted parts constructed from 400 stainless steel and zytel
- Voltage: 6-14VDC
- Coil resistance: 9 ohms
- Coil inductance: 65 mH
- Pulse width: 20ms
- Leads: 2, red and black, 45cm long, 20AWG, PVC insulation
- Latch position: + Red and – Black
- Unlatch position: + Black and - Red

Parts for 204/205 MT

HCV-KIT

- Converts standard solenoid operated valve into hydraulic remotely operated valve. Only suits Toro P150, P220, Irritrol Century, Century Plus and S-Series solenoid valves.
- Kit consists of a thread x ¼" barbed adaptor (to replace the coil) and 2 PVC plugs. Suits Toro ¼" control tubing.
- Cannot be used if EZReg or OmniReg required or fitted.

SPK-700-X

Prepackaged repair kit for UltraFlow® Series valves. Includes diaphragm assembly, support ring, seat seal, O-rings and fasteners

SPK-100-X

Prepackaged repair kit for Century Series valves. Includes diaphragm assembly, support ring, O-ring metering rod and fasteners

R100PX

Prepackaged repair kit for Century PLUS Series valves. Includes diaphragm assembly, support ring, O-rings, metering rod and fastening nuts
