INNO View 1 Optical Fibre Splicer Operation

Course Number: ELC-VA-TECH-16002

Overview: This is a training course for optical fibre technicians who are being introduced to the INNO View 1 optical fibre splicer for the first time and want to learn how to operate it.

Objective: To familiarise the new user with the View 1 and its controls, indicators and menus, and to show how to splice optical fibres with it. We also cover the routine maintenance required to keep the splicer in good working condition.

Format: This training course consists of a video covering operation and basic maintenance of the View 1. The accompanying soft-copy document is the View 1 Users Manual.

Content:

- **Video 1:** ELV-VA-TECH-16005, INNO View 1 Optical Fibre Splicer Operation
- **Document 1:** view1_um_1_0_va, INNO View 1 Splicer Users Manual

Material Location: All materials are available on Vicom's web site 'Resources' page:
