INNO View 1 Optical Fibre Splicer Maintenance

Course Number: ELC-VA-TECH-18001

Overview: This is a training course for optical fibre installation and maintenance technicians and fibre splicer technicians on providing routine maintenance for the INNO View 1 optical fibre splicer.

Objective: To train technicians on how to keep the splicer in good working condition.

Format: This training course consists of a video covering operation and basic maintenance of the View 1. The accompanying soft-copy document is the View 1 Users Manual.

Content:

- **Video 1:** ELV-VA-TECH-18001, INNO View 1 Optical Fibre Splicer Maintenance
- **Document 1:** view1_um_1_0_va, INNO View 1 Splicer Users Manual

Material Location: All materials are available on Vicom's web site 'Resources' page:
