

240V 10A PLUG

MOBILE

AT A GLANCE

- ✓ For welding, grinding, and cutting fumes
- ✓ Spacious 1100mm x 700mm downdraft work bench
- ✓ Hinged side panels allow placement of longer objects on the table
- ✓ Made in Europe
- ✓ Robust HD worktop

Part No	Description
91100TA1	TA100 Table
91990117	Main box filter F9

Specifications	
Motor Power	1 kW
Power Supply	Single phase 240 V 10A
Maximum Airflow	2,500 m ³ /hr
Table Load Capacity	500 kg
Body	Powder coated steel
Fan	Aluminium
Noise	74 dBA
Sound Insulation	Acoustic sponge
Dimensions	W1100 × D700 × H1255 mm
Weight	130 kg

Warning: This table is not suitable for grinding and polishing of Aluminium and Aluminium Alloys.

Aluminium Grinding and Polishing Powder becomes a Hazardous combustible dust. In the right concentrations and with an ignition source, such as a spark from a welding machine, or a Hot Mild Steel Grinding spark, the Alloy Dust can cause an Aluminothermic Reaction (also called a thermic reaction) which can result in an explosive fireball.

Reference: The AllClear FP Series pairs a precision fixture welding table with built-in downdraft extraction, pulling fumes and grinding dust straight down at the source. No overhead hood. No hoses in the way.

Enjoy full tabletop access for clamping and jiggling with globally recognised fixture systems, while consistent downward airflow keeps the work zone clear during welding, grinding, and cutting. Made in Europe with a powerful 3-phase motor and cleanable reusable filter, the FP Series delivers strong extraction with lower running costs. "lessons, "Fireball from Aluminium Grinding Dust"

FEATURES

- ✓ Powerful 1kw motor provides max airflow of 2,500m³
- ✓ Spark deflector plate shields filter from coarse particles & sparks, virtually eliminating fire risk & extending filter life
- ✓ F9 Cassette / box type main filter
- ✓ G4 Prefilter to increase the life of the main filter
