

AT A GLANCE

- ✓ For welding, grinding, cutting, and gouging fumes
- ✓ Spacious 1500 x 550mm downdraft work bench
- ✓ Hinged side panels allow placement of longer objects on the table
- ✓ Auto-cleaning filter
- ✓ Made in Europe
- ✓ Robust 5mm HD worktop

FEATURES

- ✓ Built-in 230–240V outlet, perfect for angle grinders and polishers. Integrated safety cut-off only delivers power when the fume table is turned on, ensure safe work peace-of-mind.
- ✓ Powerful 2.2kw motor provides max airflow of 2,500m3.
- ✓ Cleanable / reusable filter greatly extends filter life & reduces operating costs.
- ✓ Auto filter cleaning saves operator down-time (start cleaning cycle at end of shift and walk away).
- ✓ Consistent suction and prevention of filter clogging and air flow drop, due to cleanable filter.
- ✓ Spark deflector plate shields filter from coarse particles & sparks, virtually eliminating fire risk & extending filter life.
- ✓ Large 14m² filter surface area & nanofiber structure provide high filtration efficiency and long life.
- ✓ Working hour counter, filter fullness indicator, malfunction warning.

Part No	Description
WTA500	TA500 Table
91990116	Main cartridge filter standard F9
91990118	Optional HEPA (high efficiency) H13 main cartridge filter

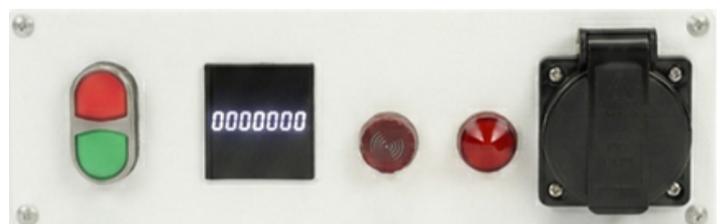

Specifications	
Motor Power	2.2kW
Power Supply	Three phase 415V, 5 Pin
Maximum Air Flow	2,500m3/hr
Surface Area of Filter	14m ²
Filter Cleaning	Automatic
Table Load Capacity	500kg
Body	Powder Coated Steel
Fan	Aluminium
Noise	74 dBA
Sound Insulation	Acoustic Sponge
Dimensions	W1580 x D780 x H1450mm
Weight	320kg

Warning: This table is not suitable for grinding and polishing of Aluminium and Aluminium Alloys.

Aluminium Grinding and Polishing Powder becomes a Hazardous combustible dust. In the right concentrations and with an ignition source, such as a spark from a welding machine, or a Hot Mild Steel Grinding spark, the Alloy Dust can cause an Aluminothermic Reaction (also called a thermic reaction) which can result in an explosive fireball.
